

# LIFT LOG - DIET BLUEPRINT

MORNING TRAINING REGIMEN (~6:30 AM) · HIGH PROTEIN CUT

~1,800  
KCAL TARGET

150g+  
DAILY PROTEIN

30g  
TARGET FIBER

-  **Gym Days:** Banana pre-lift (~6:15 AM), big protein breakfast right after (~8:15 AM)
-  **Snack 2 (~5 PM):** Critical anchor — kills evening hunger & prevents night bingeing
-  **Snack Rule:** Always protein + fiber, never naked carbs. Snacks are NOT optional
-  **Daily Walk:** Moved to post-dinner (~15 min) to aid digestion & protect morning sleep

## PART 1 · GYM TRAINING DAYS (MON · WED · FRI)

6 MEAL SLOTS

| MONDAY                                                                                                                                                                                                                                              | GYM · PUSH (CHEST/SH/TRI) | WEDNESDAY                                                                                                                                                                                                                                           | GYM · PULL (BACK/BICEPS) | FRIDAY                                                                                                                                                                                                                                              | GYM · LEGS (LOWER BODY) |
